

CATA's Clean Commute Options – Greater Lansing's Regional Mobility Broker

The Clean Commute Options program is a free program available to all those commuting into, and within, the Tri-County Region. We coordinate a variety of transportation options and are here to assist individuals and groups with the transportation choices that will work best for their travel needs.

Travel modes that we can help with for commuting purposes, work, school, meetings, non-emergency medical, etc. include:

- **Bus:** We can help you with route information anywhere in the Tri-County region.
- **Carpool & Vanpool:** Our ride-matching service will help you find others who may share a similar travel route and schedule.
- **Non-motorized:** We provide bike-buddy matching as well as information regarding bike and walking routes in our region.
- **Car-sharing:** This option is available currently to those in the East Lansing Campus region.
- **Multi-Modal:** We will assist you in combining multiple forms of transportation for your trip
- **Emergency Ride Home Service:** Free Emergency Ride Home (ERH) service is available to those who are registered with the Clean Commute Options Program and who share the ride at least 3 days per week or use CATA's Route #46 and 48 Limited. Best of all, we cover the cost!
